Profile Summary

I am Saeed Heydari I am a web developer. My main specialty is backend with Laravel with +3 years experience, Golang with +1 years experience and Front End I work with Vuejs, Nuxtjs with +2 years experience. I am also fluent in Vuetify, Bootstrap. I am a fan of the GNU / Linux world and we have been holding a Linux log for a while with my friends. I am also very interested in blockchain and IoT and artificial intelligence. I especially believe that by combining these three, a great amazing smart world can be created!
